

# Fred Anderson

08/23/05

---

## Functional summary

Construction knowledge is a primary skill that allows Mr. Anderson to perform so well. Additionally, he is highly motivated, a team player, quality oriented, cost effective and expedient. There is an order about an Anderson supervised project that quickly identifies him as a professional Construction Manager.

## Employment

Twenty-nine years with Spectrum Contracting Services. He has served as a foreman, leadman, and superintendent before promotion to Field Manager. Mr. Anderson has gained the respect of Spectrum, the Architects, and the Owners on all of the projects he has supervised.

Prior to Mr. Anderson's employment with Spectrum, he was a supervisor for an affiliated company.

## Education

- High School at Powel County High School
- Vocational School Morehead Kentucky. Certificate in Construction.
- Continuing education at Spectrum Contracting Services, Inc.

## Attributes

- Integrity - Mr. Anderson approaches all his projects with the utmost integrity.
- Construction knowledge - Mr. Anderson knows how to organize and construct a project. Furthermore, he knows what quality is and how to get the quality from his workers and the subcontractors.
- Coordination - Mr. Anderson has the ability to coordinate all the functions of a construction project into a harmonious orderly flow of efficient activities.
- Teamwork - Mr. Anderson is one of Spectrum's most cooperative employees. He is always willing to do his part within the team plus.
- Sacrifice - Mr. Anderson is willing to sacrifice himself for the good of the project. He accepts a project's challenges and refuses to fail.
